Re: Chemetco Superfund Site (Site) General Notice Letter;  
Second Notice to AFAC c/o National Foam, Inc.

Dear Sir/Madam:

This is in response to the attached Second Notice letter dated February 17, 2012. This Second Notice letter states, incorrectly, that we have not responded to the General Notice Letter dated November 30, 2011. We did, in fact, respond to the General Notice Letter dated November 30, 2011. A copy of our response is also attached hereto.

Please be advised that, depending on the results of our evaluation of our liability or potential liability for response costs at the Site, we are interested in participating in future negotiations with EPA.

We are also in the process of responding to the Information Request contained in the November 30, 2011 letter from EPA. Based on a recent email from Michel Kerr at EPA, the due date for responses is now May 4, 2012.

Please send to me (contact information below) any further communication to AFAC c/o National Foam, Inc./Kidde Fire Fighting/Kidde-Fenwal, Inc.

Very truly yours,
